

Specifications for the reception of the media for foil cutting or printing.

Software:

We accept files in: Illustrator, Photoshop, InDesign, Corel Draw or Composer for PC. (.pdf, .tif/tiff, (with LZW compression) .psd., .ai, .eps, .cd. or .plt Format)

Text:

All text content has to be outlined.

Image resolution:

For optimum print quality, use a final resolution of:

< 5 m2 - 150 - 200 dpi.

5 - 10 m2 - 100 - 150 dpi.

> 10 m2 - 50 - 100 dpi.

Depending on print material resolution can vary.

Colors:

All color files must be defined in CMYK. Files containing a match of RGB and CMYK color may result in corrupted files. Files defined in Pantone will not give a satisfactory result.

To achieve the optimum black color this should be defined as C:20, M:20, Y:20, K:100.

Colors for foil cutting are to be defined as Pantone colors.

Scaling of documents:

The document is scaled in either 10%, 25%, 50% or 100%.

Do not include trim marks, registration marks, color bars og page information in print documents.

We accept the following media:

CD, DVD, email and FTP server. (Call for login to the FTP server)

Should you have questions regarding the above, please don't hesitate to contact us.

Sincerely,

SkilteCentret
